

The most economical clean for your clothes

Zanussi's built-in washer dryer is designed to run quietly, fit in with other appliances, and clean and dry your clothes in one go. It uses the AutoAdjust feature to weigh the load, adjusting the cycle to be as fast and efficient as possible. Giving you the most economical clean.

Product Benefits & Features

Save time and energy with AutoAdjust

The AutoAdjust feature weighs what you put in the machine, adjusting the duration of the cycle and the amount of water and energy used accordingly. So you get the most economical wash, every time.

Clothing care in a single cycle with DuoSensor

DuoSensor adjusts cycles to the types of fabric you're cleaning. It customises the drum movements and temperature so that they are washed and dried with the ideal settings.

Clean and dry clothes in 60 minutes

The NonStop 60-Minute programme cleans and dries your clothes in just an hour, so you can always have an outfit ready to wear.

A quieter way to clean clothes

Our built-in washer dryer is designed to keep the noise low when running a cycle, so you can enjoy a more peaceful home.

You pick the cycle duration with Flexitime

Wash and dry clothes on your own terms. The Flexitime feature means that you can adjust the length of a full cycle, so laundry is ready when you are.

- Washing capacity: 7 kg
- Max. spin speed: 1600 rpm
- Condense dryer: the moisture is condensed into a water container, no air evacuation needed
- Drying capacity: 4 kg
- Washer-dryer for fully integrated installation
- Handwash program that allows 'handwash' labelled items to be washed by machine
