■ Product Fiche

Model	BFTD7V
Rated Capacity	7kg
Dryer Type	Air-Vented
Energy efficiency class	C
Weighted annual energy consumption (AE _c)	¹ 519.1kWh / year
Automatic or non-automatic	Automatic
EU Ecolabel	N/A
Energy consumption of the standard cotton programme	
Weighted energy consumption of the standard cotton programme at full and partial load	3.22kWh
Energy consumption of the standard cotton programme at full load	4.49kWh
Energy consumption of the standard cotton programme at partial load	2.27kWh
Power consumption of the off-mode (Po)	0.46 W
Power consumption of the left-on mode (Pl)	0.49 W
Duration of the left-on mode	10 min
Programme time of the 'Standard Cotton programme'	²
Weighted programme time of the standard cotton programme at full and partial load	104min
Programme time of the standard cotton programme at full load	142min
Programme time of the standard cotton programme at partial load	75min
Sound power level for the standard cotton programme at full load	69dB

Remarks:

- ¹ Energy consumption per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used.
- ² The programme Cotton Standard used at full and partial load is the standard drying programme to which the information in the label and the fiche relates. This programme is suitable for drying normal wet cotton laundry and it is the most efficient programme in terms of energy consumption for cotton.
