

Quick heating and even cooking

The Series 20 FanCook Oven circulates hot air heat with its fan and ring element. Air is continuously moved around in the oven cavity, to make sure that dishes can be cooked on different level at the same time

Product Benefits & Features

Double Oven—multitasking made easy

Cook two meals at once easily. With the Double Oven you have the choice of fan cooking, conventional cooking and grilling. So you can bake a cake or roast a chicken at the same time. Making your kitchen adventure a little more convenient.

Crispy food made simple with AirFry

The AirFry function with the innovative perforated AirFry tray lets air circulate around your food to evenly heat it from all angles. Removing the need for turning, so you can just enjoy the crunch of perfectly fried food.

Hassle-free maintenance, with Catalytic Cleaning

The oven has special Catalytic Cleaning liners on the walls, which clean it while switched on. High temperatures let the surface absorb splatters and residue, to stop the oven getting greasy. So you won't have scour or scrub after cooking.

Convection oven, for Even Cooking

The hot air generated inside the oven during cooking is moved around with a fan, so all your dishes receive the same amount of heat. This lets the oven heat up faster, which means you'll get the same results using 20% lower temperatures, saving time and using less energy.

Touch to time every meal / Perfectly timed meals with LED display / Time taken care of

Keep track of all your dishes with the LED timer display. Setting exact cooking times is straightforward with the touch-activated fields. Making it easier than ever to juggle a few different dishes at once.

- Double built-in oven
- Multifunctional oven with ring heating element
- 5 shelf levels
- Oven energy class: A
- Bottom oven energy class: A
- Top oven cooking functions: AirFry, Bottom heat, Conventional/Traditional cooking, Defrost, Fast grilling, Light, Moist conventional baking, Pizza setting, True fan cooking, Turbo grilling
- Bottom oven cooking functions:
 - Oven cavity with 2 baking levels
- Electronic timer
- Retractable knobs
- Catalytic stayclean oven lining
- Easy to clean door
- Cooling fan
- Trays supplied with the oven: 1 AirFry tray, 1 Dripping pan black enamel
- Grids supplied with the oven: 1 Trivet chromed, 1 Wire shelf chromed

Product Specification

Product Installation	Built_In	Thermostat	Top&Bottom
Product Typology	Double_Cav_BI_Oven_Electr	Type of timer min.	SET
Product Classification	Performance	Electronic Oven Control	No
Type	Double	Heating function top oven	Hot air 1.17
Installation	BI		Bottom, Fan + light, Grill + top, Grill + top + fan, Light, Ring (10) + top (50) + fan (w/o Lamp), Ring + bottom + fan, Ring + fan, Top + bottom
Size	90x60	Cooking function top oven	Bottom, Grill, Light, Top, Top + bottom, Top + grill
Oven Energy	Electrical		
Cooking	Fan + Ring	Cooking function bottom oven	
Cleaning top oven	Catalytic	Height total	888
Cleaning bottom oven	Catalytic	Width mm	594
Nº of cavities	2	Depth mm	568
Design family	Yellow	Built in depth mm	550
Main colour	Black	Built in height mm	875
Control Panel material	Metal Frame with Glass Inlay	Built in width mm	560
Type of doors	2 Glasses	Gas original	No
Type of handle	Metal	Gas replacement 2	No
Door type bottom oven	2 Glasses	Gas replacement 3	No
Door hinges	Drop Down Removable	Gas category	No
Drawer	No	Frequency	50
Control lamps	2 Thermostat regulator	Voltage	220-240
Hob control	No	Required fuse (A)	30
Left front - Hob control	No	Type of plug	No
Rear - Hob control	No		
Right front - Hob control	No		
Right rear - Hob control	No
